- **Construction of production hall and office building in western Poland**
- **Project schedule: 12 months**
- **Total value: approx. €61 million (STRABAG share: 70.1 %)**

Warsaw, 7 February 2018 The publicly listed European construction group STRABAG SE builds a new engine plant for Mercedes-Benz in Poland. The order for the construction of the largest production and assembly hall, which has a total value of approximately €61 million, will be carried out in a consortium with the Polish companies TKT Engineering and Elektromontaz-Poznan. STRABAG holds 70.1 %.

"This will be Mercedes-Benz's first engine plant in Poland. Four-cylinder petrol and diesel engines will be produced here for Mercedes-Benz cars. We are very pleased that we can contribute our more than 30 years of experience in Poland," says Thomas Birtel, CEO of STRABAG SE.

In addition to the 96,000 m<sup>2</sup> production hall, the consortium will also build a 1,900 m<sup>2</sup> turnkey office building. Construction is scheduled to be completed in January 2019.

### Infrastructure decisive for the choice of location

The new plant is being built in Jawor in western Poland, an economically strong region. Large investments have been made here in transportation infrastructures in recent years. Jawor is connected to the S3 expressway, which was also built by STRABAG. The proximity to Wrocław and to the A4 motorway are other factors contributing to the attractiveness of the location.
