- **Eight more toll collection stations near Oslo and Bergen**
- **Maintenance contract concluded for at least seven years**

Graz, 15 May 2019 EFKON, a specialising in toll collection systems subsidiary of Austria's biggest construction company STRABAG, is expanding its market share in the Norwegian toll collection system with two more projects.

In addition to Bypakke Bergen and Oslopakke 3 with more than 100 toll stations and a maintenance contract for eight years, EFKON was entrusted in April to implement two new projects "Nordhordland package in Hordaland" and "Damåsen-Saggrenda". The contracts for Nordhordland and Damåsen include the construction and operation of at least five toll stations near Bergen and at least three near Oslo, commissioning is scheduled for 1 December 2019 for the project near Bergen and 1 November 2019 for the project near Oslo. A maintenance contract of at least seven years with the option of an annual renewal is included.

EFKON was able to convince the customers, Ferde AS & Vegfinans AS, the regional toll companies in south-western and eastern Norway, with the concept already proven in Bergen and Oslo. The modern concept scores in particular with an appealing design and the small number of required components to fulfil the required AutoPASS specification.

***EFKON GmbH**, a subsidiary of the European construction company STRABAG SE, is one of the world's leading providers of Intelligent Transportation Systems (ITS), Electronic Toll Collection (ETC), enforcement and traffic telematic solutions. EFKON has significant know-how in all major electronic tolling technologies and provides customised turnkey solutions. Headquartered in Raaba by Graz, Austria, EFKON's activities are worldwide. Subsidiaries are located in Belgium, Ireland, Malaysia, India and South Africa.*

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our services span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by our specialised entities integrating the most diverse services and assuming responsibility for them. We bring together people, materials and machinery at the right place and at the right time in order to realise even complex construction projects – on schedule, of the highest quality and at the best price. The hard work and dedication of our nearly 75,000 employees allow us to generate an annual output volume of more than € 16 billion. At the same time, a dense network of numerous subsidiaries in many European countries and on other continents is helping to expand our area of operation far beyond the borders of Austria and Germany. More information is available at www.strabag.com.
