- **Contract comprises track construction as well as civil engineering structures**
- **Completion in 2018**
- **Contract value approx. €66 million**

Vienna, 4 May 2016 Two German subsidiaries of publicly listed technology group STRABAG SE have been awarded Contract Section South by Deutsche Bahn AG to upgrade approx. 30 km of the Berlin–Dresden railway line. The consortium of STRABAG Rail GmbH, Berlin, and STRABAG AG, Cologne, will perform track works and build new overpasses. Construction is scheduled for completion by the end of 2018. The contract has a value of about €66 million.

STRABAG Rail GmbH will lay new tracks on the Berlin–Dresden rail line along a length of 27 km between Hohenleipisch and Walddrehna and perform maintenance works on the existing tracks along a length of 26 km. Construction site preparations are scheduled to begin on 1 June 2016. The site will be closed to traffic and actual track works will begin on 5 August 2016. At the same time, STRABAG Rail will build seven railway overpasses and STRABAG AG eight road overpasses. The line is slated for reopening on 9 December 2017. “The challenging part of this project will be keeping track closures as brief as possible in order to minimise the impact on passengers,” says Thomas Birtel, CEO of STRABAG SE.

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our services span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by our specialised entities integrating the most diverse services and assuming responsibility for them. We bring together people, materials and machinery at the right place and at the right time in order to realise even complex construction projects – on schedule, of the highest quality and at the best price. The hard work and dedication of our more than 73,000 employees allows us to generate an annual output volume of about € 14 billion. At the same time, a dense network of numerous subsidiaries in many European countries and, increasingly, on other

continents is helping to expand our area of operation far beyond the borders of Austria and Germany. More information is available at www.strabag.com.

STRABAG Rail GmbH of Berlin is an international railway construction company and part of the STRABAG SE Group. With more than 90 years of experience, the company provides valuable momentum in the planning and execution of turnkey rail transport structures. With a highly qualified team and state-of-the-art equipment fleet, a separate subsidiary for railway electrification as well as innovative track construction products, the company is capable of executing projects of all kinds quickly and flexibly. More information is available at www.strabag-rail.com.

The success story of Cologne-based **STRABAG AG** began in the year 1923. Today the company is part of Austrian-based STRABAG SE Group and market leader in the transportation infrastructures segment in Germany with an annual output volume of more than € 4 billion. The more than 11,000 employees show commitment every day to offering first-rate construction services far beyond the usual road construction works. While focusing on the digitalisation of its work processes, STRABAG AG's regional units cover the entire value chain in the construction of infrastructure facilities: from digital design to construction material extraction and production to actual construction of the projects to maintenance and repair by the company's own road maintenance services.
